Who are we ?

&

Why are we here ?

— **We're not to help** —

complete your final year projects

&

compete for a corporate job

— **We might be help** —

you think !

$+$

you collaborate with ur peers

$+$

you think with ur Brains @ times of Disaster :)

Who are you ?

&

Why are you here ?

Why Design Hardware, Software ?

&

Why Design Networking ?

Why Free[dom] : h/w, s/w, n/w, design ?

Liberated Design

♡

Free[dom]

Proprietary Tools

↓

Paywalled Inaccessible Logic

↓

Unvailable Algorithm, Mathematics

↓

Access Denied Science

↓

You & Me become big fucking Dumb Joke

↓

We're not Engineers , but become Ignorants & Slaves

Technology is :

neither Good

nor bad

not even neutral

- Melvin Kranzberg

What will you do in time of Disaster ?

How will you prepare for it ?

Can u manage ur Home Energy ?

What to do in time of Internet Shutdown ?

How will you communicate during communal Riots ?

Can u face unjust detention ?

How your Brains & Skills going to help ?

- - - - - - - - -

How will you self sustain yourself ? Really? Can you ? Seriously ?

Like to Learn ?

$$\textbf{Sharing} \propto \frac{1}{shyness}$$

Can u think of a Social/Economic issue solved ?

with your Technology ?

with your Skills ?

with your Toolsets ?

Beware: don't be a TECHNOCRAT

Ethical Design: **Purpose + Empathy + Skill + Cooperation**

Be an Alt-Thinker — Be Anti-Ignorant

Try not to be a Slave

Let's Evolve
